Anas Elkhodary

Product Builder & AI Engineer

anaselkhodary69@gmail.com github.com/AnasElkhodary-69 linkedin.com/in/anas-elkhodary

anaselkhodary.vercel.app

Professional Summary

Product Builder with expertise in building scalable web applications, intelligent automation systems, and cross-platform mobile apps. Specialized in creating production-ready solutions that solve real business problems. Proven track record of delivering 13 major projects, including 24/7 production systems with 99.9% uptime. Strong foundation in both frontend and backend development, with particular expertise in AI-powered automation, multi-tenant SaaS platforms, and government-scale analytics dashboards.

Professional Experience

Product Builder

Production - 24/7

SalesBreach PRO - Enterprise Email Marketing Platform

- Architected and deployed enterprise email marketing automation platform using Flask with 15+ blueprints
- Implemented real-time webhook integration with Brevo API for campaign tracking and analytics
- Developed automated email sequence system with Celery for background task processing
- Maintained 24/7 production system serving enterprise clients at marketing.savety.online
- **Tech Stack:** Python/Flask, SQLite, Brevo API, Celery, Gunicorn

Product Builder

Production - 24/7

Sales Master - Multi-Tenant SaaS Platform

- Built multi-tenant SaaS platform with advanced client management and subscription tier system
- Implemented per-client email quotas and resource allocation using SQLAlchemy ORM
- Integrated Redis for session management and caching to optimize performance
- Designed scalable architecture supporting multiple concurrent tenants with isolated data
- Hardened security: fixed 12 critical/high vulnerabilities (Argon2 hashing, CSRF, rate limiting, account lockout)
- **Tech Stack:** Python/Flask, SQLAlchemy, SQLite, Redis, Brevo SDK

AI Engineer

Production - 99.9% Uptime

SDS Automation - Production RAG Email System

- Developed AI-powered email automation system using Mistral AI and DSPy for Retrieval-Augmented Generation
- Integrated with Odoo ERP via XML-RPC for real-time data synchronization and business logic
- Built 24/7 daemon service with auto-recovery and health monitoring dashboard
- Achieved 99.9% uptime through robust error handling and incremental sync mechanisms
- Added a Claude-based agent for order decisions and hybrid BERT product matching
- **Tech Stack:** Python, Mistral AI, Claude AI, DSPy, Odoo XML-RPC, NLP, Daemon Services

ERP Migration Engineer

Jan 2026 - Present

TNG Finishing Contractors - Odoo 19.0 Enterprise Migration

- Led full Monday.com → Odoo 19.0 Enterprise migration: 329 CRM leads, 514 contacts, $333K+ invoices
- Built 5 custom Odoo modules (Google Voice, DIDWW SMS, Twilio incoming SMS, estimate options, task states)
- Ported the main business line to Google Voice with Odoo click-to-call and SMS logging, replacing an earlier DIDWW VoIP + Twilio SMS setup
- Deployed Flask SMS proxy microservice on VPS to bridge Odoo SaaS with IP-whitelisted DIDWW API
- Authored 300+ Python scripts for ETL pipeline, automations, invoicing fixes, verification, and maintenance
- **Tech Stack:** Python, Odoo XML-RPC, Flask, Google Voice, Twilio, DIDWW, Monday.com GraphQL, Gunicorn

◆ Featured Projects

Mecano AI - Auto-Repair Shop OS

mecano.best

AI operating system for auto-repair shops: multi-tenant Shop-OS SaaS with a Claude-powered assistant, 3 Flutter apps, and a directory of 8,000+ shops

Tech: Next.js, Prisma, PostgreSQL/PostGIS, Claude AI, LangGraph, Stripe, Flutter, Astro, Docker | **Features:** Row-level tenant isolation, text approvals, invoice collection, GPS driver app

Muslimoon - Platform for Mosques

muslimoon.online

Multi-tenant SaaS for mosques and Islamic communities with mobile app, admin dashboard, donations, and Android TV displays

Tech: NestJS, PostgreSQL, Redis, React, Flutter, Kotlin (Android TV), Astro, Stripe Connect | **Features:** Prayer times, RBAC + 2FA, remote-managed TV screens, CI/CD

EGE Foundation - Website Rebuild & Hack Recovery

egefocused.org

Forensic cleanup and full rebuild of a hacked WordPress site for a Sacramento environmental-leadership nonprofit: 486 spam posts removed, 26-page custom theme, SEO recovered

Tech: WordPress, PHP 8.4, WP-CLI, Tutor LMS, Wordfence, Cloudflare | **Features:** Learning portal, event ticketing, donations, security hardening

EncarExport - Korean Car Export Marketplace

encarexport.com

Marketplace that scrapes Korean used-car listings and republishes them for export, translated by AI into 4 languages

Tech: Next.js 15, Drizzle, PostgreSQL, Python scraper, Claude AI, Expo | **Features:** 5-language site with RTL Arabic, currency switching, mobile app

SavetyAI Website

savety.ai

AI-powered cybersecurity platform website with modern design and performance optimizations

Tech: Astro, Preact, Tailwind CSS, Framer Motion | **Features:** 3D animations, neural AI theme, optimized performance

IKRAA + OOLA - Arabic Learning Platform

app.oo-la.com

Unified Arabic learning platform with 2 production apps (Quranic + Modern Arabic), full backend, store in-app purchases on mobile, Stripe + PayPal on web, and admin dashboard

Tech: Flutter, NestJS, PostgreSQL, Apple IAP, Google Play Billing, Stripe, PayPal, Next.js | **Features:** 6-language support, payment processing, admin dashboard, PM2 deployment

AI2GO Education Analytics

edu.ai2go.vip

Government-scale education data unification platform with AI-powered analytics for ministries of education

Tech: React 19, Chakra UI, ApexCharts, Framer Motion, @tsparticles | **Features:** 100+ districts, AI Widget Generator, 7 dashboard pages, ROI Calculator

Technical Skills

Frontend Development

Next.js, React, Astro, Tailwind CSS, TypeScript, Framer Motion, Flutter

Backend Development

Python/Flask, Node.js, SQLAlchemy, REST APIs, Webhooks, Gunicorn

AI & Machine Learning

Mistral AI, DSPy, RAG Systems, NLP, OCR (pytesseract)

Database & Storage

SQLite, PostgreSQL, Redis, Odoo ERP

DevOps & Tools

Docker, Git, CI/CD, Daemon Services, VS Code, Android Studio, Postman

Cloud & Services

Vercel, Firebase, Brevo API, Web3Forms

Education & Key Achievements

Software Engineering

Focus on Product Building, AI/ML, and SaaS Architecture
